

# Professional and Continuing Education Courses

**Non-credit courses are recorded as Continuing Education Units or CEUs. One CEU represents 10 contact hours of instruction and learning activities. CEUs are generally not transferrable to other institutions.**

**PACE                      01                      Lean Six Sigma Green Belt Certificate DFS (6.4)  
Custom**

This project-based course leads to a certification in the Lean Six Sigma Green Belt business process improvement program. Participants will learn the Six Sigma business transformation model, understand continuous improvement, apply organizational learning methods, and understand the value stream. Participants will complete projects to interactively engage with the theory and skills needed to successfully complete the Six Sigma Green Belt exam (taken at the end of the course).

**PACE                      23                      Basic Construction Management Certificate (2.4)**

The National Association of Construction Professionals (NACP), in partnership with Westminster College, provides a Basic Construction Management Certificate (BCMC) program for construction professionals. The program consists of a three-day workshop to prepare them to pass the Basic Construction Management Professional (BCMP) exam. Students take the exam as a part of this program. Successful students will receive the BCMP credential through the NACP. Upon successful completion of all sections and components, students will be awarded the Basic Construction Management Certificate from Westminster College.

**PACE                      31                      Lean Six Sigma Green Belt Certification (24)**

Lean Six Sigma is a combination of two popular continuous improvement methods—Lean and Six Sigma—that pave the way for operational excellence. It relies on a collaborative team effort to improve performance by systematically removing waste and reducing variation. The Lean Six Sigma Green Belt is an essential member of every Lean Six Sigma project team. Whether you're tasked with leading your own projects or are looking to expand your education, Westminster's Lean Six Sigma Green Belt course will increase your knowledge base and capability to apply the DMAIC methodology and Lean methods. Green Belt training represents a reduction in time and material required for Black Belt training, so many professionals choose to start their process improvement career at this level. It's a quicker entry into the industry and a way to explore your comfort in the role before making a larger commitment.

**PACE                      32                      Process and Project Management Certificate (33)  
(PPMC)**

In this certification program, the student will gain a solid understanding of project management, as well as the very coveted Lean Six Sigma Green Belt. Lean Six Sigma is a combination of two popular continuous improvement methods—Lean and Six Sigma—that pave the way for operational excellence. It relies on a collaborative team effort to improve performance by systematically removing waste and reducing variation. The Lean Six Sigma Green Belt is an essential member of every Lean Six Sigma project team. Whether you're tasked with leading your own projects or are looking to expand your education, our PPMC course will increase your knowledge base and capability to apply the DMAIC methodology and Lean methods to projects. This blended program is very focused on getting you to translate the knowledge you gain through online learning and practice to real skills and expertise. The skills transfer doesn't end there as you must complete a Project Fundamentals Course and a Lean Six Sigma Green Belt online training and simulation project to earn your certification.

**PACE                      41                      Lean Six Sigma Black Belt Certification (80)**
